B. Golovkin. The Mercenary Violent Crime in Ukraine: the phenomenon, determination, prevention: Monograph / B. Golovkin. - Kharkiv : "Pravo", 2011. - 432 p.

The phenomenon of self-interested violent crime, its quantitative and qualitative characteristics, major trends and patterns of development are studied. The personality of selfish violent criminal is studied; the formation of his orientation and specificity of criminal conduct is analyzed. The features of self-serving determination of violent crime are fixed. A theoretical model applied to prevent self-interested violent crime and its manifestations is proposed.

For scientists, professors, graduate students, applicants, students of law universities and law enforcement officials.
